

Babel Subtitling offers services in sub/surtitling to producers, programmers, organizers and for entertainment halls. We are centered on the main European languages: FRENCH, DUTCH, ENGL, GERMAN, SPANISH and ITALIAN as source or target languages. We also work with other language combinations. Whatever the client's constraints, we pay close attention and try to find solutions together. Our favorite fields of work: subtitles in English for a widened distribution (cinema), FR/D/GER subtitling for distribution in Belgium, subtitling of corporate films for distribution on the net, surtitling of performances into French or Dutch
