

**D6D / DESIGN
STUDIO**

Based in Liège, Belgium, our studio is situated at the very heart of Europe, something which is reflected in the composition of our staff – a Franco-Belgian, a German and an Anglo-Dutchman. This diversity helps us look over borders, understand different cultures, and get your message across in four native languages - French, German, English and Dutch!

Every member of our staff has his own original point of view and different professional background. Combined with our extensive network of audiovisual professionals, this makes us flexible and capable of tackling a wide array of projects. All in all, a perfect recipe for your complete satisfaction!
