

The Computer Graphics department of the Haute Ecole Albert Jacquard (higher education institution) offers a Bachelor's degree in computer graphics techniques, as well as a year of specialization (Honours years) in video games.

The curriculum of this Bachelor's degree aims to train specialists in one of the options our students can choose from:

- 3D visualization and motion design
- 3D animation movies
- video game art
- video game animation
- video game design
- graphic and advertising communication
- web and multimedia design
- digital animation and illustration
