

Alterface Projects is the leading manufacturer of interactive and media-based attractions across the world. Our mission is to design entertaining attractions complete with creativity, reliability, high return on investment and of course fun!

We develop, market and implement interactive entertainment solutions intended for non-domestic use. Our HQ is based in the heart of Europe : Belgium. We also have an office in the USA and in China. Our expertise and exclusive technologies are appreciated by our clients : amusement parks, family entertainment centers and museums, located all over the world.
