

VHS AGENCY

VHS agency is a communications outfit that services clients in corporate and in the arts, thanks to the background and experience of its creative founder.

Our work is essentially video-based: storyboarding, filming, editing, post-production. Whether we produce your video entirely or make the smallest contribution, we always endeavor to showcase your product or your company in a manner that is innovative, esthetic and relevant.

Exhibition, Mapping, Hologram, feature film, corporate video for internal or external use, our service offer is large. Each video is unique and uniquely adapted to your communication needs.
