

"VIGO UNIVERSAL" is a company active in new technologies (virtual/augmented reality, 3D scanning/printing)

- Consultancy and advice in software development
- Design of interactive solutions for professionals (applications, serious games)
- Development of training and professional simulations in virtual reality
- Development of immersive experiences and video games in virtual reality (LBE - Location Based Entertainment)

"VIGO UNIVERSAL" is the originator of the largest virtual reality experience park in Europe, HolloH, located at the Pôle Image de Liège (www.holloh.com). The centre is accessible to the general public through exclusive and original games, but also to professionals during teambuildings and company parties.
