

Mikros Image Belgium, digital post-production & visual effects specialists.

Mikros Image (www.mikrosimage.eu), the digital post-production group & visual effects specialists, set up shop in Belgium in November 2008, at the heart of the Pôle Image de Liège. Mikros Image Liège aims to offer Belgian producers the complete package of services Mikros Image delivers in France.

The studio already offers 2D & 3D digital visual effects, synthetic imagery and compositing, color grading, mastering, DCP, SD or HD video mastering.

The studio has grown into a community of twenty graphic designers, project managers and supervisors.
